Research in Analytical Psychology
Applications from Scientific, Historical, and Cross-Cultural Research

Edited by Joseph Cambray, Leslie Sawin

Research in Analytical Psychology: Applications from Scientific, Historical, and Cross-Cultural Research is a unique collection of chapters from an international selection of contributors, reflecting the contemporary field of research in Analytical Psychology with a focus on qualitative and mixed-methods research.

Presented in seven parts, this volume offers unique qualitative research that highlights approaches to understanding the psyche and investigating its components, and offers a Jungian perspective on cultural forces affecting individual psychology. The book brings forward the connections between Analytical Psychology and other disciplines including neuroscience, psychotherapy research, developmental research, Freudian psychoanalysis, and cultural studies.
