## Research in Analytical Psychology Empirical Research

Edited by **Christian Roesler**

*Research in Analytical Psychology: Empirical Research* provides an original overview of empirical research in Analytical Psychology, focusing on quantitative and qualitative methods. This unique collection of chapters from an international range of contributors covers all the major concepts of Analytical Psychology and provides a strong empirical foundation.

The book covers a wide range of concepts and fields, and is presented in five parts. Part I, Epistemological Foundations, looks at psychological empiricism and naturalism. Part II, Fundamental Concepts of Analytical Psychology, presents chapters on complexes, archetypes, dream interpretation, and image. Part III, Trauma, addresses neuroscience, dreams and infant observation research. Part IV, Psychotherapy and Psychotherapeutic Methods examines sand-play, picture interpretation, quality management and training. Finally, Part V, Synchronicity, contains chapters concerning the experience of psychophysical correlations and synchronistic experiences in psychotherapy.

### Applications from Scientific, Historical, and Cross-Cultural Research

Edited by **Joseph Cambray, Leslie Sawin**

*Research in Analytical Psychology: Applications from Scientific, Historical, and Cross-Cultural Research* is a unique collection of chapters from an international selection of contributors, reflecting the contemporary field of research in Analytical Psychology with a focus on qualitative and mixed-methods research.

Presented in seven parts, this volume offers unique qualitative research that highlights approaches to understanding the psyche and investigating its components, and offers a Jungian perspective on cultural forces affecting individual psychology. The book brings forward the connections between Analytical Psychology and other disciplines including neuroscience, psychotherapy research, developmental research, Freudian psychoanalysis, and cultural studies.
